Rome, July 28. N. S.

THE Pope's frequent Indiſpoſitions of late, added to his great Age, ſeem to give ſeveral of the Cardinals thoughts of making an Intereſt againſt the next Conclave. The Pope on the other hand endeavours to remove this ill Opinion which People have of his Health, and to this end affects to be in Publick at Chapels, and to appear abroad as often as may be; and particularly on the 23d Inſtant he was preſent in the Congregation of the Inquiſition, and the ſame day went to viſit three or four Churches, but being returned to the Palace, he found himſelf out of order, and faint; However he was abroad again on the 25th to review a Company of Cuiraſſiers newly raiſed, and yeſterday he went to ſee a Houſe lately built for the Prieſts Miſſionaries near *Monte-Citorio*, and the Hoſpital of St. *Michael* at *Ripa-grande*. The Negociation for accommodating the Differences between the Emperor and this Court is carried on with good Succeſs, and it's believed the Pope will very ſoon admit the Imperial Ambaſſador to Audience. The King of *Spain* having deſired the Pope would give him leave to raiſe a Subſidy on the Clergy in his Dominions in *America*, a Congregation was held laſt week to conſider thereof, at which the Pope himſelf was preſent, and they reſolved to conſent, that a Tax be laid upon the ſaid Clergy, provided it exceeds not a Million of Crowns; and a Brief is ordered to be diſpatched for that purpoſe. Cardinal *Sachetti* has been very much indiſpoſed, but is now pretty well again.

Venice, Auguſt 1. The Senate have frequent Meetings to conſider of the Differences between the *Venetian* and *Turkiſh* Commiſſioners for ſettling the Limits, and Signior *Soranzo*'s departure from hence on his Embaſſy to the Port is delayed till theſe Matters are adjuſted. An Expreſs was diſpatched this week to the *Venetian* Ambaſſador at *Vienna*, with the Senate's further Orders concerning the Diſpute between the Emperor and this State about the County of *Licca*, and it's ſaid, the Republick is enclined to comply with the Propoſals that have been made to them by the Emperor's Miniſters, that this County be yielded to the *Venetians* for a Sum of Money. Our Letters from *Dalmatia* ſay, General *Mocenigo* continues at *Zebenico* near the County of *Licca*, having cauſed a conſiderable Body of *Venetian* Forces to take their Quarters in thoſe Parts, to obſerve the Imperial Troops who continue on that Frontier, but ſeem to have no other Deſign than to ſecure the Poſſeſſion of that County. Our laſt Advices from *Conſtantinople* ſay, the *Turkiſh* Admiral is ſailed from thence with a Squadron of Men of War, to viſit the Iſlands in the *Archipelago* that are under the Sultan's Dominion; That the *Turks* continue to fortifie all their Ports in the *Black-Sea*, and to make Preparations for preventing any Deſign the *Muſcovites* may have againſt them; And that a Body of Janizaries were ordered to march towards *Baſſora*, where the *Arabs* do ſtill continue in Rebellion againſt the Grand Signior.

Warſaw, Aug. 3. The Committee of the Senate appointed to conſider of the Affair of *Elbing*, meet very frequently, and ſeem reſolved to do whatever is reaſonable on their part, in order to an amicable Accommodation. The Senate have under Conſideration, the ſettling the Number of Troops that are to be kept on foot, redreſſing the current Coin of this Kingdom which is very much adulterated, and ſeveral other Matters referred to them by the laſt Diet. Preparations are making for the King of *Poland*'s Journey to *Toplitz* in *Bohemia*, where he intends to ſtay about three weeks to make uſe of the Baths, and from thence will go to *Saxony*; whither divers Perſons of Quality, and among others, the Biſhop of *Ploſko*, Prince *Radzivill*, and the Crown-Treaſurer, deſign to accompany him. Our laſt Letters from *Lemberg* give an Account, that the *Capigi Bacha* is arrived at *Caminiec* from *Andrinople*, with very expreſs Orders from the Grand Signior for delivering up that Place to the *Polanders*, and has had ſeveral Conferences with the Commiſſioners, whom the King of *Poland* has appointed to take Poſſeſſion of the ſame, in which the Hoſpodar of *Moldavia* and the Baſſa of *Caminiec* likewiſe aſſiſted on the Part of the Port; and having agreed on all Things relating to the Evacuation of this Fortreſs, and particularly that the ſame quantity of Cannon and Ammunition ſhall be left to the *Polanders* as was found there when it was taken by the *Turks*, the *Turkiſh* Garriſon were accordingly preparing to march out of that Place; after which the Commiſſioners of *Poland* intended to go and receive from the *Turkiſh* Commiſſioners the Forts in *Podolia* and *Ukrania*, which are yielded to the Crown of *Poland* by the Treaty of Peace, and to ſettle with them the Limits of thoſe Provinces.

Francfort, Auguſt 13. The Elector Palatine is gone to *Manheim*, to view the Fortifications that are making there, and he intends, after a few days ſtay in that Place, to fix his Reſidence in the Caſtle of *Hydelberg*, which is lately rebuilt. The *French* Forces, commanded by the Marquis *d'Uxelles*, continue ſtill about *Landau*, and a Train of Artillery, with divers Waggons laden with Ammunition, are ordered to join them; But we hear at the ſame time, that there is a Negociation on foot to adjuſt the Buſineſs of the Dutcheſs of *Orleans*'s Pretenſions, which is the occaſion of the preſent motion of theſe Forces. We have an
